- ▶ **Coming 2006**

International Tyre Allocation Service

XTIRE, Inc. offers its customers and tyre importers all over the world an International Tyre Allocation Service for all those tyres which are not manufactured by us at this time.

These tyres become available in the international market occasionally. Mostly are new, firsts, major brand radial OTR tyres. There are also offers for used or recapped tyres.

Each time a group of these tires become available we will receive a detailed list of the inventory, be it from Europe or the United States. All tyres will be offered on a "first come, first served" basis. Immediate confirmation and a deposit will be required for any or all tires offered if there is a definite interest.

Available allocated tyres come in diverse quantities, brands, patterns, etc. The quantities offered may vary since those come from cancelled orders, over stocks, etc.

Please provide us with a personal name, company name, address, e-mail, telephone and fax numbers, etc., and please include a list of sizes, patterns and PR's or interest. You will be contacted as soon as these tyres of interest become available.

Thank you!
